

Product Disclosure Statement ARSN 633 803 497 APIR OMF8040AU

Holon Photon Fund

 11 July 2022

ABOUT THIS PDS

This Product Disclosure Statement ("PDS") has been prepared and issued by Holon Investments Australia Limited ("Holon", "we" "us" or "Responsible Entity") and is a summary of general information relating to an investment in the Holon Photon Fund (the "Fund").

Units in the Fund are offered and issued by the Responsible Entity on the terms and conditions described in this PDS. By becoming an investor in the Fund, you agree to be bound by this PDS. The information provided in the PDS is general information only and does not take account of your personal financial situation or needs. You should obtain professional financial advice tailored to your personal circumstances and consider the suitability of the Fund in view of your financial position, investment objectives and needs before making an investment decision.

No guarantee of the repayment of capital or a rate of return

Neither the Responsible Entity and Custodian nor any of their respective employees, agents and officers, guarantee the success, repayment of capital, rate of return on income or capital or investment performance of the Fund. It is your obligation to seek any advice on and observe any legal restriction on investment in the Fund which may apply to you.

Access to information

This PDS provides a summary of significant information. The Fund's Reference Guide dated 11 July 2022 ("Reference Guide") contains a number of references to important information (each of which forms part of the PDS). You should consider the information before making a decision about the Fund. The Reference Guide can be obtained at holon.investments, free of charge. You should consider all of this information before making a decision to invest in this product.

This PDS is not an offer or invitation for the Fund in any place in which, or to any person to whom, it would not be lawful to make that offer or invitation. It is your obligation to seek any advice on and observe any legal restrictions on investment in the Fund which may apply to you.

Update of Information

Information in this PDS is subject to change of a type that is not materially adverse from time to time. Such updates will be published at holon.investments. A paper copy of any updated information will be provided free of charge on request by emailing hello@holon.investments.

As the Fund is a disclosing entity, it has regular reporting and disclosure obligations under the Corporations Act, and in accordance with ASIC guidance, all material information will be available to investors at holon.investments. A copy of any document lodged with ASIC to comply with disclosure requirements may be obtained from or inspected at an ASIC office. On request, the Responsible Entity will provide investors with copies of the most recent annual financial report for the Fund, the half-yearly financial report and any continuous disclosure notices.

Updated information about performance, unit prices, Fund size and other general information about the Fund will be published at holon.investments.

New Zealand investors

The offer to which this PDS relates is only available to persons receiving this PDS in Australia and New Zealand (electronically or otherwise). New Zealand investors must read the Information for New Zealand Investors in the Fund's Reference Guide before investing in the Fund.

References in this PDS

All amounts in this PDS are in Australian dollars. All fees are inclusive of GST and take into account RITC, if applicable. All fees in this PDS are rounded to two decimal places. All references to time and to Business Days are to Sydney time and Business Days.

For a glossary of terms used in this PDS, see page 8.

1. ABOUT HOLON INVESTMENTS AUSTRALIA LIMITED

Holon Investments Australia Limited

Holon Investments Australia Limited is an Australian incorporated company which holds an Australian Financial Services Licence (“AFSL”).

The Holon Group was established in Sydney in 2018 and specialises in managed funds for retail, wholesale, and institutional investors, with a particular focus on new technologies and cryptocurrency investing.

Holon is the Fund’s Responsible Entity and the issuer of this PDS. The responsibilities and obligations of the Fund’s Responsible Entity are governed by the Fund’s constitution (“Constitution”), the Corporations Act and general trust law.

As the Responsible Entity, Holon oversees the operation and management of the Fund and is required to act in the best interests of investors.

Holon will also act as the Investment Manager of the Fund.

For the Fund, Holon manages an investment strategy based on investing in equities listed on the ASX and other global exchanges benefiting primarily from technological innovation. The Fund will focus on digital innovation enabling and driving a number of new emerging sectors and companies with the unusual economic characteristics of having strong network effects and the ability to scale rapidly and serve global markets.

The Fund aims to generate capital growth it is unlikely to generate much, if any, income.

Indemnity

The above entity is indemnified out of the Fund against all liabilities and expenses incurred by it in properly performing any of its duties, exercising any of its powers, or omitting to act for the Fund, or attempting to do so. Subject to the Corporations Act, provided Holon acts in good faith and without negligence, it is not liable to investors for losses of the Fund (except in certain circumstances where it can be indemnified from the Fund).

Holon and the service providers for the Fund do not guarantee the performance of the Fund, the return of capital or the payment of any income.

2. HOW THE HOLON PHOTON FUND WORKS

The Fund is a registered managed investment scheme governed by the Constitution. The Fund comprises assets which are acquired in accordance with the Fund’s investment strategy. In a unit trust structure, when you invest your money, it is pooled with other investors’ funds. Each unit represents an equal share in the net assets of the Fund, or where there are classes of units, of the net assets referable to that class. The rights of unitholders are set out in the Fund’s Constitution, the Corporations Act and general trust law.

The price of units will change as the market value of the Fund’s assets rises or falls in line with the underlying assets of the Fund.

The Fund at a glance:

Investment objective	To outperform the MSCI AC World Net Index (in Australian dollars) over rolling seven-year periods (after fees and expenses but before taxes).
Investment style	The investment style is to generate capital growth.
Management fee	0.85% p.a. (incl. GST & RITC).
Minimum initial investment	\$5,000
Additional investment	You can add to your investment by purchasing additional units at a value of \$1,000 minimum.
Minimum withdrawal	The minimum withdrawal amount is \$5,000 provided the minimum holding of \$5,000 is maintained after the withdrawal, or if not, the minimum withdrawal is equivalent to the value of the remaining units in the unitholders account.
Valuation, unit issues and withdrawals	Each Business Day.
Administrator	Unity Fund Services Pty Ltd
Custodian	One Managed Investment Funds Limited
Unit Registry	One Registry Services Pty Limited

The minimum amounts in the table can be adjusted at any time by the Responsible Entity without prior notice to unitholders.

Investing and access to your money

An investor wishing to make an application or withdrawal should submit a properly completed application or withdrawal form to the Unit Registry.

Withdrawal proceeds will be remitted by electronic transfer to the investor’s designated AUD account, normally within 5 Business Days after the relevant Valuation Day.

Short delays may occur if you redeem shortly after 30 June while any distributions are being finalised. Further, there may be some circumstances where the Responsible Entity decides to put a freeze on withdrawals. In these circumstances, or where the Fund is not liquid (as defined in the Corporations Act), you may have to wait a longer period of time before you can withdraw your investment. If the Fund is not sufficiently liquid, then you will only be permitted to withdraw if the Responsible Entity makes a withdrawal offer to all investors under the Fund Constitution and the Corporations Act.

Valuation and unit prices

The Net Asset Value (NAV) per unit is calculated daily by deducting all liabilities (including fees) of the Fund and dividing this by the number of units on issue.

The Fund unit price is based on the NAV per unit. A properly completed application or withdrawal request received by 11:00am on a Business Day will receive the application or withdrawal price based on the NAV per unit calculated for that day. For any distribution reinvestment, units will be issued at the price applying on the date of unit issue. Where units are issued, the Buy Spread is added to the NAV per unit and for withdrawals, the Sell Spread is deducted.

Distributions

An investor's share of any distributable income is generally based on the number of units held by the investor at the end of a distribution period. If there is any distributable income, the Fund will usually distribute income annually at the end of June via reinvestments in the Fund, unless the investor indicates that they wish to have distributions directly credited to their bank account. The Buy Spread is not applied to reinvested distributions.

In some circumstances, the Constitution may allow for a unitholder's withdrawal proceeds to be taken to include a component of distributable income.

New Zealand investors can only have their distribution paid in cash if an AUD Australian domiciled bank account is provided, otherwise it must be reinvested.

Reporting

Monthly performance and other updates will be provided at holon.investments.

Further information

You should read the important information in 'Investing in the Holon Photon Fund' and 'Withdrawing your investment' in the Reference Guide which includes information about application and withdrawal cut off times and processing, and when there may be restrictions on withdrawals, before making a decision. Go to holon.investments for a copy of the Reference Guide. Note the information may change between the time when you read this PDS and when you acquire or dispose of the product.

3. BENEFITS OF INVESTING IN THE HOLON PHOTON FUND

Benefits of the Scheme

The investment strategy of the Fund acknowledges that the accelerating pace of innovation needs to be addressed and offers an alternative to funds that are heavily skewed to traditional Australian blue-chips like banks and resources. Investing in the Fund offers significant benefits, including the following:

- Access to an active investment strategy that seeks to outperform the Benchmark over time;
- Unique investment opportunities and diversification that individual investors usually cannot achieve on their own;
- A risk management process that manages different levels of investment risk relative to anticipated investment returns;
- Participation in any income distributions from the Fund; and
- Investor communications including quarterly updates and annual tax statements to keep you up to date on your investment in the Fund.

4. RISKS OF MANAGED INVESTMENT SCHEME

All investments carry risks. Different investment strategies may carry different levels of risk, depending on the assets acquired under the strategy. Assets with the highest long-term returns may also carry the highest level of short term-risk. The Fund capital, income or rate of return is not guaranteed, so that investors may lose money investing in the Fund. The level of returns will vary, and future returns may differ from past returns. The structure and administration of the Fund is also subject to change.

The significant risks below should be considered in light of your risk profile when deciding whether to invest in the Fund. The level of risk for each person will vary depending on a range of factors, including: age, investment timeframes, where other parts of your wealth are invested and your risk tolerance.

Concentration risk

Concentration of investments in the Fund (between individual investments and types of investments) will reduce the potential benefit of diversification. Diversification has the potential benefit of reducing volatility of investment.

Currency risk

Currency risk is the sensitivity of the portfolio value to movement in foreign exchange rates. Holon quantifies the risk of each individual security but does not actively manage currencies in aggregate for the Fund. Therefore, there is a risk that they may be adversely affected by currency movements.

Fund risk

As with all managed funds, there are risks particular to the Fund including: that the Fund could be terminated, the fees and expenses could change, or service providers are changed.

Key person risk

The directors and appointed senior executives of Holon are the primary representatives who perform investment management related activities. The Fund's performance depends on their expertise and the investment decisions that they make. To manage this risk, the directors and senior executives maintain an up-to-date knowledge of various market factors through a review of fundamental data whilst also conducting ongoing research. This information is taken into account when making investment management decisions.

Legal risk

The Fund may be affected by the actions of governments and regulatory bodies. Legislation could be imposed retrospectively or may be issued in the form of internal regulations of which the public may not be aware. Legislation (including legislation relating to tax) or regulation may be introduced which inhibits the Fund from pursuing its strategy or which renders a strategy less profitable than anticipated. These actions may take any form and may be imposed without prior warning by any regulator.

Market risk

The value of the Fund will be affected by the performance of the investments chosen for the Fund which may in turn, be affected by the performance of the investment markets generally. This risk, related to market performance, includes demand and supply in the market and economic and regulatory conditions, including market sentiment, inflation, interest rates, employment, political events, environmental (including climate change) and technological issues and consumer demands.

Inflation risk

There is a risk that inflation and/or interest rates may fluctuate and affect investment returns and the real value of your investment.

Strategy risk

The Fund will invest primarily in companies listed on the ASX and other markets globally that are benefiting primarily from the digital transformation of the global economy. Investing in companies such as these can generate higher returns if the technologies and strategies employed by the company are successfully implemented. Conversely, investee companies can perform poorly if their technology is overtaken or disrupted by competitors.

Operational risk

Operational risk addresses the risk of trading and back office or administration issues that may result in a loss to the Fund's portfolio. This could be the result of oversight, ineffective security processing procedures, computer system problems or human error. Holon have instituted certain practices and processes within its operations and business administration designed to mitigate the operational risk consequences that arise wherever possible.

Liquidity risk

There may be times when securities may not be readily sold. If the Fund becomes illiquid, withdrawals from the Fund may be suspended.

Service provider risk

Service provider risk is that the various parties involved in the operation of the Fund, including the Responsible Entity, Custodian, Fund Administrator or Unit Registry or their agents fail to perform their obligations. This may affect the value of your investment in the Fund. This risk is mitigated (but not eliminated) by undertaking initial and ongoing due diligence on all service providers to the Fund external to the Responsible Entity and using service providers who are well regarded in the Australian or their respective overseas markets.

5. HOW WE INVEST YOUR MONEY

Before choosing to invest in the Fund you should consider the likely investment returns, the risks of investing and your investment timeframe. The Fund should be considered a long-term investment.

Investment objective

The Fund's investment objective is to outperform major equity indices, in particular the MSCI AC World Net Index in Australian dollars (Benchmark), over rolling seven-year periods (after fees and expenses but before taxes) by focusing on shares listed on the ASX and other global exchanges benefiting primarily from technological innovation.

Benchmark

The MSCI AC World Net Index (in Australian dollars).

Risk level of the Fund

High – There is a risk that investors may lose some of their investment.

Investor suitability

The Fund would suit investors looking for exposure to a global listed equities portfolio comprised of approximately 10 – 30 companies with global opportunity sets benefitting primarily from innovation and investors seeking capital growth.

Investment style and approach

The investment style is active with the aim of capital growth.

The Fund is permitted to invest in listed global equities and cash (including cash held in foreign currencies).

The investment approach involves undertaking deep, fundamental research on each business that is considered for the portfolio. Each business is valued by discounting the expected future cash flows that is assessed against qualitative factors. Final portfolio allocations are a function of the probability of achieving the return objective. Importantly, certainty is prioritised over high rates of return. Meaning, for any given level of return, higher portfolio weightings will be a result from outcomes that are judged to be more certain.

The goal is to build a portfolio that delivers capital growth.

Asset allocation

The Fund will adhere to the following asset allocation ranges:

- Listed global equities: 75-100%.
- Cash and cash equivalents: 0-25%.

These allocations may vary from time to time due to market conditions. In these circumstances, Holon will seek to bring the Fund's investments within the guidelines within a reasonable period of time.

Currencies and derivatives

Holon will not actively manage foreign currency exposure for the Fund. The Fund does not invest in derivatives.

Leverage

Holon does not use leverage to increase the net invested position of the Fund.

Changing the investment strategy

The investment strategy and asset allocation parameters may be changed. If a change is to be made, investors in the Fund will be notified in accordance with the Corporations Act.

Labour, environmental, social and ethical considerations

While we intend to conduct our affairs in an ethical and sound manner, the Fund's investment criteria does not consider labour standards, environmental, social or ethical considerations for the purpose of selecting, retaining or realising an investment of the Fund.

Fund performance

Up-to-date information on the performance of the Fund can be obtained from holon.investments

Further information

You should read the important information in the Reference Guide about:

- Your privacy
- The Constitution
- Anti-Money Laundering and Counter Terrorism Financing ("AML/CTF")
- Information on underlying investments
- Foreign Account Tax Compliance Act ("FATCA")
- Common Reporting Standard ("CRS")

Under the "Other important information" section and for New Zealand investors, 'Information for New Zealand investors', before making an investment decision. Go to the Reference Guide which is available at holon.investments. The material relating to these matters may change between the time when you read this PDS and the day when you acquire the product.

6. FEES AND COSTS

Consumer advisory warning

Did you know?

Small differences in both investment performance and fees and costs can have a substantial impact on your long-term returns.

For example, total annual fees and costs of 2% of your investment balance rather than 1% could reduce your final return by up to 20% over a 30-year period (for example, reduce it from \$100,000 to \$80,000).

You should consider whether features such as superior investment performance or the provision of better member services justify higher fees and costs.

You may be able to negotiate to pay lower contribution fees and management costs where applicable.

Ask the Fund or your financial adviser.

To find out more

If you would like to find out more or see the impact of the fees based on your own circumstances, the Australian Securities and Investments Commission (ASIC) website (www.moneySMART.gov.au) has a managed investment fee calculator to help you check out different fee options.

Fees and costs summary

This section shows fees and other costs that you may be charged. These fees and costs may be deducted from your money, from the returns on your investment or from the assets of the managed investment scheme as a whole.

Taxes are set out in another part of this document.

You should read all the information about fees and costs because it is important to understand their impact on your investment.

Holon Photon Fund		
Type of fee or cost	Amount	How and when paid
Ongoing annual fees and costs^{1 2}		
Management Fees and Costs^{3 4} The fees and costs for managing your investment	0.85% per annum of GAV	This fee is calculated and accrues daily and is reflected in the Unit price. It is paid monthly in arrears out of the Fund assets.
Performance Fees Amounts deducted from your investment in relation to the performance of the product	15% of the amount by which the Fund's returns (after fees and expenses but before taxes) exceed the Benchmark and subject to the High-Water Mark.	This fee accrues daily and is reflected in the Unit price. This fee is not always payable. If payable, it is paid each Performance Period to Holon.
Transaction Costs The costs incurred by the Fund when buying or selling assets	Nil	Transaction costs are variable and deducted from the Fund as they are incurred and reflected in the unit price. They are disclosed net of amounts recovered by the buy-sell spread.
Member activity related fees and costs (fees for services or when your money moves in or out of the Fund)		
Establishment Fee The fee to open your investment	Nil	Not applicable
Contribution Fee The fee on each amount contributed to your investment	Nil	Not applicable
Buy/Sell Spread An amount deducted from your investment representing costs incurred in transactions by the Fund	+/- 0.15%	Retained as an asset of the Fund at the time units are issued or redeemed.
Withdrawal Fee The fee on each amount you take out of your investment	Nil	Not applicable
Exit Fee The fee to close your investment	Nil	Not applicable
Switching Fees The fee for charging investment options	Nil	Not applicable

¹ All fees quoted above are inclusive of GST and net of any RITC. Please see Additional explanation of fees and costs below as to how management fees and costs are calculated.

² Your financial adviser may receive payment for providing advice services to you. Refer to the information below in Additional Explanation of Fees and Costs.

³ The Management Fee can be negotiated. Please see Additional explanation of fees and costs under "Differential fees" below.

⁴ Includes Custodian, Administration and Unit Registry fees and other expenses relating to the compliance, investment management, management and administration of the Fund, excluding abnormal expenses (such as investor meeting costs).

Example of annual fees and costs for the Fund

This table provides an example of how the fees and costs for the Fund can affect your investment over a 1-year period. You should use this table to compare this product to other managed investment products.

EXAMPLE: Holon Photon Fund	Balance of \$50,000, with a contribution of \$5,000 during the year	
Contribution fees	Nil	For every additional \$5,000 you put in, you will be charged \$0.
PLUS Management fees and costs*	0.85% p.a.	And , for every \$50,000 you have in the Fund you will be charged or have deducted from your investment \$425 each year.
PLUS Performance Fee	1.18% ¹	And , you will be charged or have deducted from your investment \$590 in performance fees each year.
PLUS Transaction costs	0%	And , you will be charged or have deducted from your investment \$0 in transaction costs.
EQUALS Cost of Fund		If you had an investment of \$50,000 at the beginning of the year and you put in an additional \$5,000 during that year, you would be charged fees and costs of: \$1015

* Management costs are charged on your investment amount and any contribution made during the year. This example assumes the \$5,000 contribution occurs at the end of the first year, so that management costs are calculated using the \$50,000 balance only. Please note that this example does not capture all the fees and costs that may apply to you such as the Buy/Sell Spread.

¹This is the historical average performance fee charged for the Fund since inception. Performance fees vary from year to year according to the Fund's actual performance and can be zero in any financial year. The historical average for the performance fee since the Fund's inception is 1.18% p.a. of the Fund's net assets. Past performance is no guarantee of future performance.

Additional explanation of fees and costs

What do the management costs pay for?

Management costs comprise the additional fees or costs that an investor incurs by investing in the Fund rather than by investing directly in the assets of the Fund and include the management and administration fees.

Management costs paid out of Fund assets reduce the net asset value of the Fund and are reflected in the unit price. Management fees do not include transaction costs (i.e. costs associated with investing the underlying assets, some of which may be recovered through buy/sell spreads).

Management Fee

The management fees of 0.85% p.a. of the GAV of the Fund's assets are payable to the Responsible Entity and include most expenses of the Fund. These expenses include the administration and custody fees, registry fees, audit fees and other ordinary expenses of operating the Fund so that the Responsible Entity will bear any excess out of its management costs.

Performance Fee

The Responsible Entity may also be entitled to receive a performance fee. The performance fee (if any) is calculated and payable out of the assets of the Fund in respect of each period of 6 months (or shorter period in the Fund's first and last year) ending on 30 June and 31 December in each year (**Performance Period**). It is charged subject to the High-Water Mark so that any underperformance must be recovered prior to a performance fee being paid.

The performance fee per Unit amount will be 15% of the amount by which the percentage change in the net asset value per Unit in the Fund (including any distributions paid during the Performance Period) exceeds the percentage change in the Benchmark over the

Performance Period, multiplied by the net asset value per Unit. The performance fee will only be payable to Holon if movements in the net asset value per Unit (including any distributions paid during the Performance Period) outperform the Benchmark during the Performance Period and is subject to the High-Water Mark.

Abnormal Expenses

Abnormal Expenses other than those referred to in the management fee section above may be reimbursed from the Fund. These are costs which are not expected to be incurred on a regular basis, such as the costs of holding an investor meeting.

Transaction Costs

The Fund may incur transaction costs such as brokerage, settlement costs, clearing costs and government charges when assets are bought and sold.

All of these costs are recovered through the Buy/Sell spread of 0.15% set by the Responsible Entity as based on its expectation of the Fund's average transaction costs. This is to ensure that existing investors do not pay costs associated with other investors acquiring or withdrawing units. The money is retained in the Fund. The Buy/Sell Spread may be varied by the Responsible Entity from time to time.

Advice fees

Your financial adviser may receive payment for providing advice services to you. You may separately negotiate an advice fee for these services. Refer to the Statement of Advice and Financial Services Guide prepared by your financial adviser in which details of these fees are set out.

Can the fees change?

Yes, all fees can change without investor consent, subject to the maximum fee amounts specified in the Constitution. At least 30 days' notice will be given if there is any proposed change to the management fees. The Fund's Constitution defines the maximum that can be charged for fees described in this PDS.

Differential Fees

Holon may from time to time negotiate a different fee arrangement with certain Wholesale Investors.

Further Information

You should read the additional important information about how the performance fee is calculated before making a decision. Go to [holon.investments](#) for a copy of the Reference Guide. Note the information may change between the time when you read this PDS and when you acquire or dispose of the product.

7. HOW MANAGED INVESTMENT SCHEMES ARE TAXED

Investing in a managed investment scheme is likely to have tax consequences. This registered managed investment scheme does not pay tax on behalf of investors. As such you will be personally assessed for tax on any net income and capital gains generated by the scheme. In normal circumstances, you should expect that some income and/or capital gains will be generated each year. The taxation of managed investment schemes is complicated and you are strongly advised to seek professional tax advice relevant to your own circumstances before investing in the Fund.

Foreign Tax Resident Reporting

Laws have been introduced in Australia to implement global standards relating to the automatic exchange of financial account information between tax authorities to ensure that everyone pays the right amount of tax. As a financial institution, Holon must identify accounts held by investors who are foreign tax residents or entities connected to foreign tax residents and report this account information to the Australian Tax Office. This information is then shared with tax authorities in:

- the United States (U.S.) under a system known as the Foreign Account Tax Compliance Act (FATCA). This is for U.S. citizens and tax residents only and applied from 1 July 2014; and
- other countries under the Common Reporting Standard (CRS). The CRS applies to all foreign tax residents from 1 July 2017.

It is important that you provide us with information about your tax residency, the nature of your business and any beneficial owners. This will enable us to comply with our obligations under the FATCA and CRS laws. If you do not respond, we may be required to treat you as if you are a foreign tax resident, even if you are not. Penalties may apply if you deliberately or recklessly provide false or misleading information.

Further Information

You should read the additional important information about how managed investment schemes are taxed before making a decision. Go to holon.investments for a copy of the Reference Guide. Note the information may change between the time when you read this PDS and when you acquire or dispose of the product.

8. HOW TO APPLY

- Read, in their entirety, this PDS and the Reference Guide, available at holon.investments.
- Consider whether this investment is suitable to your financial situation and needs and consider all the risk factors set out in Section 4 of the PDS for more information.
- The minimum investment is \$5,000, and then in multiples of \$1,000, or such other amount agreed by us.
- Complete the Application Form which is available from holon.investments/photons; or by calling (02) 8277 0000. Please refer to the Application Form for details on how to complete the Application Form, how to pay your application money and where to lodge the Application Form and any relevant documentation.

9. RESPONSIBLE ENTITY'S LEGAL RELATIONSHIP WITH UNITHOLDERS

The Responsible Entity's responsibilities and obligations are governed by the Fund Constitution and the Corporations Act as well as indirectly by general trust law. The Constitution contains a number of provisions relating to the rights, terms, conditions and obligations imposed on both the Responsible Entity and unitholders.

The Constitution for the Fund provides that unless there is a separate agreement with a unitholder, no unitholder can be called on to contribute to the assets of the Fund or to its creditors if the Fund is liquidated or becomes insolvent. As a result, it is expected that unitholders will not be under any obligation if a deficiency in the assets of the Fund was to occur.

10. COMPLAINTS RESOLUTION

The Responsible Entity has an established complaint handling process and is committed to properly considering and resolving all complaints.

If you have a complaint about your investment, please contact Holon Investments Australia Limited:

- by telephone, on 1800 866 995;
- by post; Holon Investments Australia Limited
- Office 18, Level 2 Lawson Place,
165/167 Phillip Street
Sydney NSW 2000; or
- by email: complaints@holon.investments

Holon will acknowledge receipt of your complaint as soon as practicable. Generally, this will be within 24 hours (or one business day) of receiving it. We will seek to resolve your complaint as soon as practicable but not more than 30 days after receiving the complaint.

If you are not satisfied with our response, you may be able to lodge a complaint with the Australian Financial Complaints Authority ("AFCA"): online at www.afca.org.au;

- by telephone: 1800 931 678;
- by email: info@afca.org.au;
- by post: GPO Box 3, Melbourne VIC 3001.

Please quote our AFCA membership number: 89906.

11. COOLING OFF PERIOD

If you have invested directly in the Fund, you may have a right to a 'cooling off' period in relation to your investment in the Fund for 14 days from the earlier of:

- confirmation of the investment being received; and
- the end of the fifth Business Day after the units are issued.

You may exercise this right by notifying us in writing. Your investment will be returned and adjusted for any increase or decrease in the relevant application price between the time we process your application and the time we receive the notification from you, as well as any other tax and other reasonable administrative expenses and transaction costs associated with the acquisition and termination of the investment.

The right to cool off does not apply in certain limited situations, such as if the issue is made under a distribution reinvestment plan or represents additional contributions required under an existing agreement. Also, the right to cool off does not apply to you if you choose to exercise your rights or powers as a unitholder in the Fund during the 14-day period. This could include selling part of your investment.

12. THE FUND'S SERVICE PROVIDERS

The following service providers to the Fund are not responsible for the preparation of this PDS or for the activities of the Fund and as a result accept no responsibility for any information contained in this PDS.

The Responsible Entity of the Fund monitors the compliance of the following service providers with their contractual obligations to the Fund through receipt of compliance certifications, performance reviews and audit activity performed by the Fund's external auditor.

The Custodian

One Managed Investment Funds Limited

The Responsible Entity has appointed One Managed Investment Funds Limited under a Custody Agreement.

The Custodian has no supervisory role in relation to the operation of the Fund and has no liability or responsibility to a unit holder for any act done or omission made in accordance with the Custody Agreement.

The Custodian has not made any statement or purported to make any statement that is included in this Product Disclosure Statement or statement on which a statement made in this Product Disclosure Statement is based, except as set out in this paragraph.

The Custodian expressly disclaims all liability in respect of, makes no representation or any statement regarding, and takes no responsibility for, any part of this Product Disclosure Statement or any statements in or omissions in this Product Disclosure Statement other than the reference to its name. This applies to the maximum extent permitted by law and does not apply to any matter to the extent to which the consent is given.

The Custodian does not guarantee the return of any capital sums invested or any rate of return or the performance of any obligations.

The Administrator

Unity Fund Services Pty Ltd

Unity Fund Services Pty Ltd (Unity or Administrator) has been appointed to act as Administrator of the Fund. Holon and Unity have entered into an agreement for administrative services for the Fund that sets out Unity's role as Administrator, including its rights and obligations and the limits on its liability.

Unity's obligations for the Fund are limited to the provision of services to Holon.

The Unit Registry

One Registry Services Pty Limited

One Registry Pty Limited (One Registry or Unit Registry) has been appointed to provide unit registry services to the Fund. Holon and One Registry have entered into an agreement that sets out One Registry's responsibilities which includes maintaining the Fund's register of unitholders and providing certain other administrative services.

Appointment of new service providers

The Responsible Entity may remove the Fund's Custodian, Administrator or Unit Registry and appoint a replacement at any time without notice to investors. Changes to a key service provider will be disclosed to investors in the Fund's periodic or continuous disclosures.

13. TARGET MARKET DETERMINATION

The Target Market Determination (“TMD”) for the Fund is available on our website at holon.investments.

14. ADDITIONAL INFORMATION

Change of details

From time to time, you may need to advise us of changes relating to your investment. You may advise Holon by the email or mail of changes relating to:

- your mailing address;
- your financial adviser, if you have nominated one; or
- your election to receive distributions as cash or to reinvest them.

Privacy

You should also read the important information about how our privacy policy works, before making a decision. Please read the Responsible Entity’s Privacy Policy, which can be downloaded at holon.investments/privacy-policy/.

Consents

Holon, OIG, One Registry and Unity have each given and, as at the date of this PDS, have not withdrawn their written consent to be named in this PDS for their respective roles for the Fund; and their written consent to the inclusion of the statements made about them.
