HOLON PHOTON FUND: FOCUSED ON INNOVATION AND DISRUPTION IN GLOBAL LISTED MARKETS

Accelerating innovation and globalisation trends as we move into the digital age are disrupting markets globally. The Holon Photon Fund (**the Fund**) aims to capture large scale opportunities in public markets by investing in the leaders, enablers and beneficiaries of transformative innovation of today, tomorrow and the future.

Holon believes public markets are underestimating global innovation because of short-term focus on results, coupled with moves to passive investing. In particular, we believe that global digitalisation is seeing business models evolve from 'local & linear' to 'global & exponential' in nature.

As a result, understanding technology cost curves and global convergence factors presents difficulties for traditional public market analysts that are generally organised by sector, geography and or market caps. We believe innovative public companies with forward looking growth are the most inefficiently priced part of global listed markets.

WHY INVEST IN THE HOLON PHOTON FUND?

- Exposure to global innovation and disruption:** Holon believes listed markets are underestimating the impact of global innovation.
- Reduce concentration risk in Australian share portfolios:** Domestic portfolios are heavily skewed towards banks, resources and the Australian dollar while underweight global innovation and disruption.
- Diversification:** Offers a tool for diversification because of minimal overlap with traditional index-based strategies and can be a complement to traditional value/growth strategies.
- Growth potential:** Aims to capture long-term alpha+ with low correlation of relative returns to traditional growth strategies and negative correlation to value strategies.
- Grounded in fundamentals:** Focused and detailed bottom-up research in its portfolio management to identify innovative companies and convergence across markets.
- Investor aligned wealth management:** Holon's investment team are invested in their strategies and control the investment manager.

INVESTMENT APPROACH

Holon employs a probability-based, implied investment process. Deep, fundamental research is conducted on each business that is considered for the portfolio. Each business is valued by discounting the expected future cash flows that is assessed against qualitative factors. Final portfolio allocations are a function of the probability of achieving the return objective. Importantly, certainty is prioritised over high rates of return. Meaning, for any given level of return, higher portfolio weightings will be a result from outcomes that are judged to be more certain.

FUND RETURN OBJECTIVE

The Fund's investment objective is to outperform major global equity indices, in particular the MSCI AC World Net Index TR in Australian dollars (Benchmark), over rolling seven-year periods (after fees and expenses but before taxes) by focusing on shares listed on the ASX and other global exchanges benefiting primarily from technological innovation.

FUND DETAILS

Inception Date	1 July 2019
APIR Code	OMF8040AU
Product Type	Registered Managed Investment Scheme domiciled in Australia
Responsible Entity	Holon Investments Australia Limited
Investment Universe	Listed Global Equities
Benchmark	MSCI AC World Net Index TR
No. of Investments	10-30 stocks
Maximum Stock Position	10%

PORTFOLIO MANAGER

Heath Behncke is the Portfolio Manager and Managing Director of Holon Global Investments founded on 1 July 2018. He has over 20 years equity market experience, the majority of which was with boutique investment managers (Azimut/Sigma, Credit Suisse, Magellan, Perennial and AMP). Heath was investing in local technology companies (e.g., MYOB, IRESS, etc.) early in his

investment career and, as an actuary, also has a deep understanding of the structure of the financial services industry and markets. He also holds investments in unlisted asset managers.

Heath is passionate about promoting positive social change and giving back to the community. As a former ANU Alumni, he sits on the ANU Student Managed Fund investment committee. He established and Chairs the investment committee for the Magpies & Killer Whales Endowment Fund for his Water Polo club in which he has had a long association. Heath is also a former Australian Institute of Sport Scholarship holder and Australian Water Polo player.

LISTED COMPANY CHARACTERISTICS

Investee companies will typically hold the following attributes:

1. A global opportunity set;
2. A quality company in an attractive industry;
3. Run by competent & capable people with integrity;
4. Within our circle of competence; and
5. Available at a price we consider is reasonable.

There will also be a preference for companies with conservative financial settings. While the Fund can invest in any industry or industry segment, the primary focus will be within the consumer, financials, technology and transport sectors of the economy. The above criteria provide a broad, diversified portfolio of businesses from a fundamental perspective. The Fund will be aware of concentration and correlation risks, with the central focus being on minimising the risk of permanent loss of capital. Exposure to currencies will be monitored on a look through basis but the Fund will be managed on an unhedged basis.
